Alabama Department of Mental Health

Child & Family Services Resource Directory

Welcome to the Child and Family Services Provider Directory

This directory is your guide to the network of service providers across Alabama who support the mental health and well-being of children, adolescents, and their families. Each organization listed plays a vital role in helping young people thrive at home, in school, and in their communities.

The Alabama Department of Mental Health (ADMH) partners with community-based agencies to deliver a wide range of services—ranging from early intervention and in-home supports to intensive outpatient care and crisis response. These services are designed to be youth- and family-driven, culturally competent, and responsive to the unique needs of each child and family.

Whether you're a parent, caregiver, educator, or professional, this directory will help you locate trusted providers offering compassionate, evidence-based care for behavioral health challenges. Together, we are building a stronger, healthier future for Alabama's children and families.

The table of contents below is hyperlinked so you can jump around to the different sections of the directory with ease.
