<u>Benefits of an Information Management System</u>

ASAIS, Alabama Substance Abuse Information System, is a web-based management information system that will assist SASD in achieving the goal of providing the highest level of client care with the funds we have available.

<u>ASAIS will assist SASD with:</u>

- <u>Initial assessment, eligibility, determination and enrollment;</u>
- <u>Needs determination, level of care assignment and admission;</u>
- <u>Utilization (waiting list) management;</u>
- <u>Provider network management;</u>
- <u>Budget and contract services management;</u>
- <u>Claims processing;</u>
  <u>Prevention services</u>**<u>;</u>**
- <u>Quality and outcome reporting.</u>
