# INTRODUCTION

## INTRODUCTION

This document is the Contract Billing Manual and is intended to function as a companion to the ADMH Substance Abuse Services purchase of service contract. It serves to define billable services, eligible staff (where appropriate), reporting codes, units, unit rates, restrictions (if any), and any other condition of billing the service.

While it is recognized that involvement of family members in the rehabilitation of recipients with mental health and substance use disorders may be necessary and appropriate, provision of services where the family is involved must be clearly directed to meeting the identified recipient's needs. Services provided to non-Medicaid eligible family members independent of meeting the identified recipient's needs are not covered by Medicaid.

Questions relative to this manual should be directed to the appropriate Office of Substance use disorder treatment Services (OSATS) team member.

### **No residential programs with 17 beds or more are eligible to bill Medicaid (IMD Exclusion).**

#### **Listing of modifier codes:**

59 – Special Medicaid Modifier (NCCI)  
AM - Buprenorphine  
CG – Probation (methadone)  
DY – Department of Youth Services  
GZ – Bed Hold Day  
H9 – Drug Court  
HA – Adolescent  
HD – Special Women's  
HF – Substance Abuse  
HG – Methadone  
HH – Co-occurring Enhanced  
HQ – Group  
HV – State Only  
HW:QJ – Institutional Assessment  
HZ – Indigent Offender  
SR – SOR  
TS – Guest dosing (methadone)  
U6 – HIV  
UF – Phase 2-3 (methadone)  
V1 – For use as needed  
V2 – For use as needed  
V3 – For use as needed

**INTAKE/BEHAVIORAL HEALTH PLACEMENT ASSESSMENT IN INSTITUTIONS (JAILS, PRISONS, HOSPITALS)**

**Definition:** The Alabama Department of Mental Health has enabled payment for this service in response to requests from partner agencies to assist recipients who need substance use disorder treatment in transitioning from an institutional setting to community-based care. Assessments done in institutional settings are not allowable for the purpose of case finding. These assessments must be completed at the request of a potential recipient, family member on behalf of a recipient, institutional staff, or an agency or entity seeking services on behalf of a potential recipient. In each of these cases, the person must have an indicated need for transitioning from his/her current institutional setting to a substance use disorder treatment program. All rules published in the Alabama Department of Mental Health Administrative Code for the provision of the Intake Evaluation (Behavioral Health Placement Assessment) and related documentation are applicable to this service.

- Eligible Staff:** QSAP I
  
- SAS Reporting Codes:** 90791:HF:HW:QJ – Adult

# ACCOMODATIONS

## **ACCOMMODATIONS FOR CHILDREN IN RESIDENTIAL SPECIAL WOMEN'S PROGRAM**

**Definition:** Overnight accommodations (room and board/lodging) for children of recipients who are in special women's residential programs.

**SAS Reporting Code:**               **S9976 - One Child**  
   **S9976:HF - Two Children**  
   **S9976:HF:HD - Three Children**

**SAS Reporting Unit:**               Day

**SAS Contract Billing Rate:**       \$30.00 One Child  
   \$60.00 Two Children  
   \$90.00 Three Children

**Maximum Billable Unit(s):**   One per child per day

**SAS Reporting Combination Restrictions:** Parent/legal guardian must be actively enrolled in an ADMH certified substance use disorder treatment program. Only billable in program certified as a Special Women's Program whose written program description allows for children to come to treatment with the recipient.

**Location:** In a residential structure that complies with all applicable federal, state and local codes and is certified at Level 3.1, 3.3, or 3.5.

**BEHAVIORAL HEALTH ACCOMMODATION (FORMERLY RESIDENTIAL BED, BOARD AND PROTECTION)**

**Definition:** A highly structured, twenty-four hour, supervised living arrangement operated by the facility using employees around the clock, awake staff, and designed to initiate and promote a safe and sober living environment for the recipients, including food and housing. Academic services are also to be provided where applicable.

**Eligible Levels of Care:** Unbundled Level 3.1, Level 3.3, Level 3.5, Level 3.7, and Level 3.7-WM

**SAS Reporting Code:** **1003:HF, HF:HD, HF:HV, HF:H9 HF:HH, or HF:HZ – Adult Supervised Living**

**1003:HF:HA, HF:HA:HH or HF:HA:H9 – Adolescent**

**SAS Reporting Unit:** Day

**SAS Contract Billing Rate:** \$37.42 per day

**Maximum Billable Unit(s):** The maximum units billable in one day cannot exceed the number of certified beds

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with another residential rate (MH, SA or DD).

In disaster situations where recipients must be sent away from the facility for a brief time, this service can be billed for up to three (3) days. Billing in excess of three (3) days must be approved by the ADMH Office of Substance Abuse Treatment Services.

**Location:** Level 3.1, Level 3.3, Level 3.5, Level 3.7-WM certified residential programs

## RESIDENTIAL BED HOLD DAY

**Definition:** Bed Hold is defined for the Residential Treatment Programs Contract Billing as the act of reserving a bed space for a recipient that is admitted to the facility but has to be temporarily absent from the program. Absence is defined as time away from the program due to illness that results in a (psychiatric or general) hospital stay, family illness/emergency, weather-related disasters, temporary incarceration, or physical damage resulting in loss of power or water to the facility. All other conditions must comply with the general rules for bed occupancy. The Residential Bed Hold Day Policy is applicable to all residential levels of care.

**Billing Restriction:** Bed space for admitted recipients is approved for payment for up to four (4) bed days without approval from the ADMH Office of Substance use disorder treatment Services. The contractor will submit on a timely basis to MHSAS the appropriate request for approval of additional days past the four (4) day time limit for the signature and approval of the appropriate staff member. Requests for approval may be made by fax or e-mail before services are entered into the Alabama Substance Abuse Information System (ASAIS) for payment.

**Required/Eligible Staff:** Program and/or clinical directors as defined in the current version of the SA Administrative Code.

**ADMH Reporting Code:** Add the GZ modifier to any bundled residential code or Behavioral Health Accommodation code (i.e. H0018:HF:GZ, H0019:HF:GZ, H2036:HF:GZ, etc.).

**SAS Reporting Unit:** 1 Bed Day

**SAS Contract Billing Rate:** \$45.00 Adult  
\$60.00 Co-Occurring Enhanced, Adolescent and Special Women's

**Documentation Requirements:** Written notification in the recipient record will be necessary whenever a recipient is absent from the program for more than a 24 hour period of time. Documentation should cover the reason for the recipient's absence and note that the program is utilizing the Bed Day Policy. On occasions when the recipient will be absent from the program for more than the four (4) days allowed by this policy, written documentation of the reason(s) for the absence, along with the approval from the ADMH Office of Substance Use Services, must be included in the recipient's record.

**Maximum Billing Unit(s):** 4 Bed Days (96 hours) Without State Approval

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with another residential rate (MH, SA or DD).

**Location:** Only appropriate for residential settings.

**BUNDLED**

**SERVICES**

## HOSPITAL DETOXIFICATION

**Definition:** An organized service delivered by medical and nursing professionals, which provides 24-hour medically supervised evaluation and withdrawal management in a permanent facility with inpatient beds for individuals who have opioid use disorders, alcohol use disorders or sedative, hypnotic, or anxiolytic use disorder. Services are delivered under a defined set of physician approved policies and physician monitored procedures or clinical protocols. This level provides care to recipients whose opioid withdrawal signs and symptoms are, or historically have been, sufficiently severe so as to require 24-hour inpatient care with observation, monitoring and treatment being available. If a SOR modifier (SR) is used for opioid use disorders, a transition plan from detoxification to treatment must be implemented and include the use of extended release naltrexone.

Essential to this level of care is the availability of appropriately credentialed and licensed nurses who monitor recipients over a period of several hours each day of service.

**Eligible Staff:** See ADMH Administrative Code.

**SAS Reporting Code:**  
**H0009:HF – Adult**  
**H0009:HF:SR - Adult**  
**H0009:HF:HH:SR – Co-Occurring**  
**H0009:HF:HZ:SR-Indigent**  
**H0009:HF:H9:SR-Drug Court**

**SAS Reporting Unit:** 1 day

**SAS Contract Billing Rate:** \$425.00 / Unit

**Maximum Billable Unit(s):** 1 per day

**SAS Reporting Combination Restrictions:** Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD).

**Location:** Services can be delivered in a hospital setting only. It must afford an adequate therapeutic environment, and that protects the recipient's rights to privacy and confidentiality.

## **LEVEL 1:WM AMBULATORY WITHDRAWAL MANAGEMENT WITHOUT EXTENDED ON-SITE MONITORING**

**Definition:** Level I-WM is an organized outpatient service, delivered by trained clinicians who provide medically supervised assessment, medication or non-medication methods of withdrawal management, recipient education, non-pharmacological clinical support, involvement of family members or significant others in the withdrawal management process, and discharge or transfer planning, including referral for counseling and involvement in community recovery support groups. Therapies also include physician and/or nurse monitoring, assessment, and management of signs and symptoms of intoxication and withdrawal

**Eligible Staff:** See ADMH Administrative Code.

**SAS Reporting Codes:** **H0014:HF, HF:HV, HF:H9, or HF:HZ - Adult**  
**H0014:HF:HD – Special Women’s**  
**H0014:HF:HH – Co-occurring**

**SAS Reporting Unit:** 1 day

**SAS Contract Billing Rate:** \$45.00 Adult  
\$54.00 Co-occurring Enhanced or Special Women’s

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD).

**Maximum Billable Unit(s):** 1 per day

**Location:** Services can be delivered in any setting that is acceptable for both the recipient and staff member, that affords an adequate therapeutic environment, and that protects the recipient's rights to privacy and confidentiality.

## **LEVEL 2.5: PARTIAL HOSPITALIZATION SERVICES**

**Definition:** Partial hospitalization programs generally feature 20 or more hours of clinically intensive programming per week, as well as daily or near-daily contact, as specified in the recipient's treatment plan. These programs typically have direct access to or close referral relationship with psychiatric, medical and lab services.

**Eligible Staff:** See ADMH Administrative Code.

**SAS Reporting Code:** **H0035:HF, HF:HV, HF:H9, or HF:HZ - Adult**  
**H0035:HF:HD – Special Women's**  
**H0035: HF:HH – Co-Occurring Enhanced**

**SAS Reporting Unit:** Hour

**SAS Contract Billing Rate:** \$16.25 Adult  
\$19.50 Co-occurring Enhanced and Special Women's

**Maximum Billable Unit(s):** 4 units per day/520 units per year

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD). These restrictions apply while a recipient is attending/actively enrolled in Partial Hospitalization whether or not the restricted services occur on the same day as Partial Hospitalization.

**Location:** Services can be delivered in any setting that is acceptable for both the recipient and staff member, that affords an adequate therapeutic environment, and that protects the recipient's rights to privacy and confidentiality.

**LEVEL 2 WM: AMBULATORY WITHDRAWAL MANAGEMENT WITH EXTENDED ON-SITE MONITORING**

**Definition:** Level 2WM detoxification is an organized outpatient service, which may be delivered by medical and nursing professionals who provide medically supervised evaluation, detoxification and referral services. Outpatient withdrawal management services shall be designed to treat the recipient's level of clinical severity and to achieve safe and comfortable withdrawal from mood-altering substances, as well as effectively facilitate the recipient's entry into ongoing treatment and recovery. If SOR modifier is used, transition plan must include the use of extended release naltrexone.

Essential to this level of care is the availability of appropriately credentialed and licensed nurses who monitor recipients over a period of several hours each day of service.

A detailed description of the services typically offered in this level of care, the care setting and how to identify which recipients would benefit best from these services based on an ASAM dimensional needs assessment, is described in the most recent publication of the ASAM criteria.

**Eligible Staff:** See ADMH Administrative Code.

**SAS Reporting Code:** **H0013:HF, HF:HV, HF:H9, HF:HZ, or HF:SR- Adult**  
**H0013:HF:HH – Co-Occurring Enhanced**  
**H0013:HF:HD – Special Women’s**

**SAS Reporting Unit:** 1 day

**SAS Contract Billing Rate:** \$145.00 Adult  
\$174.00 Co-Occurring Enhanced or Special Women’s

**Maximum Billable Unit(s):** 1 per day

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD).

**Location:** Services can be delivered in any setting that is acceptable for both the recipient and staff member, that affords an adequate therapeutic environment, and that protects the recipient's rights to privacy and confidentiality.

### **LEVEL 3.01: TRANSITIONAL RESIDENTIAL TREATMENT**

**Definition:** A residential service that provides substance use disorder supportive services and therapeutic activities conducted in a residential setting designed to provide an environment conducive to recovery and to promote reintegration into the mainstream of society.

**Eligible Staff:** See ADMH Administrative Code.

**SAS Reporting Code:** **T2048:HF, HF:HV, HF:H9, or HF:HZ - Adult**  
**T2048:HF:HD – Special Women’s**  
**T2048:HF:HH – Co-Occurring Enhanced**

**SAS Reporting Unit:** Day

**SAS Contract Billing Rate:** \$40.00 per day Adult  
\$48.00 per day Co-Occurring Enhanced and Special Women’s

**Maximum Billable Unit(s):** The maximum units billable in one day cannot exceed the number of certified beds.

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD).

**Location:** In a residential structure that complies with all applicable federal, state, and local codes.

### **LEVEL 3.1: CLINICALLY MANAGED LOW INTENSITY RESIDENTIAL TREATMENT ADULT**

**Definition:** Program offers at least 5 hours per week of low intensity treatment of substance use disorders. Treatment is characterized by services such as individual, group, and family therapy; medication management; and psychoeducation. These services facilitate the application of recovery skills, relapse prevention, and emotional coping strategies. They promote personal responsibility and reintegration of the recipient into the network systems of work, education, and family life. Mutual/self-help meetings are available on-site, or easily accessible in the local community.

A detailed description of the services typically offered in this level of care, the care setting and how to identify which recipients would benefit best from these services based on an ASAM dimensional needs assessment, is described in the most recent publication of the ASAM Criteria.

**Eligible Staff:** See ADMH Administrative Code.

**SAS Reporting Code:** **H2034:HF, HF:HV, HF:H9, or HF:HZ-Adult**  
**H2034:HF:HD – Special Women’s**  
**H2034:HF:HH – Co-Occurring Enhanced**

**SAS Reporting Unit:** Day

**SAS Contract Billing Rate:** \$54.00 Adult  
\$65.00 Co-occurring Enhanced and Special Women’s

**Maximum Billable Unit(s):** The maximum units billable in one day cannot exceed the number of certified beds.

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD).

**Location:** In a residential structure that complies with all applicable federal, state, and local codes.

**LEVEL 3.3: CLINICALLY MANAGED POPULATION-SPECIFIC HIGH INTENSITY ADULT  
RESIDENTIAL TREATMENT**

Definition: Provide a structured recovery environment in combination with high intensity clinical services provided in a manner to meet the functional limitations of recipients to support recovery from substance-related disorders. For the typical recipient in a Level 3.3 program, the effects of the substance use or other addictive disorder or a co-occurring disorder resulting in cognitive impairment on the individual’s life are so significant, and the resulting level of impairment so great, that outpatient motivational and/or relapse prevention strategies are not feasible or effective. Similarly, the recipient’s cognitive limitations make it unlikely that he or she could benefit from other levels of residential care. The functional limitations seen in individuals who are appropriately placed in Level 3.3 are primarily cognitive and can be either temporary or permanent. When assessment indicates that such an individual is no longer cognitively impaired, he or she can be transferred to a higher or lower level of care based upon the severity of illness and rehabilitative needs.

A detailed description of the services typically offered in this level of care, the care setting and how to identify which recipients would benefit best from these services based on an ASAM dimensional needs assessment, is described in the most recent publication of the ASAM criteria.

Eligible Staff: See ADMH Administrative Code.

SAS Reporting Code: **H0019:HF, HF:HV, HF:HZ, or HF:H9 - Adult**  
**H0019:HF:HH – Co-Occurring Enhanced**  
**H0019:HF:HD – Special Women’s**

SAS Reporting Unit: 1 day

SAS Contract Billing Rate: \$90.00 Adult  
\$115.00 Co-Occurring Enhanced and Special Women’s

Maximum Billable Unit(s): The maximum units billable in one day cannot exceed the number of certified beds.

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD).

Location: In a residential structure that complies with all applicable federal, state, and local codes.

**LEVEL 3.5: CLINICALLY MANAGED HIGH INTENSITY RESIDENTIAL TREATMENT - ADULTS**

**LEVEL 3.5: CLINICALLY MANAGED MEDIUM INTENSITY RESIDENTIAL TREATMENT - ADOLESCENTS**

**Definition:** Programs are designed to serve recipients who, because of specific functional limitations, need safe and stable living environments in order to develop and/or demonstrate sufficient recovery skills so that they do not immediately relapse or continue to use in an imminently dangerous manner upon transfer to a less intensive level of care. This level assists recipients whose addiction is currently so out of control that they need a 24-hour supportive treatment environment to initiate or continue a recovery process that has failed to progress. Their multidimensional needs are of such severity that they cannot safely be treated in less intensive levels of care. Many recipients treated in this level have significant social and psychological problems.

A detailed description of the services typically offered in this level of care, the care setting and how to identify which recipients would benefit best from these services based on an ASAM dimensional needs assessment, is described in the most recent publication of the ASAM criteria.

**Eligible Staff:** See ADMH Administrative Code.

\$144.00 Adolescent, Co-Occurring Enhanced, TANF and Special Women’s

**Maximum Billable Unit(s):**        Cannot exceed number of certified beds.

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD).

**Location:** In a residential structure that complies with all applicable federal, state, and local codes.

### **LEVEL 3.7: MEDICALLY MONITORED INTENSIVE INRECIPIENT TREATMENT - ADULTS**

### **LEVEL 3.7: MEDICALLY MONITORED HIGH-INTENSITY INRECIPIENT TREATMENT - ADOLESCENTS**

**Definition:** Programs provide a planned and structured regime of 24-hour professionally directed evaluation, observation, medical monitoring and addiction treatment in an inpatient setting. This level of care is appropriate for those recipients whose sub-acute, biomedical and emotional, behavioral or cognitive problems are so severe that they require inpatient treatment, but who do not need the full resources of an acute care general hospital or a medically managed inpatient treatment program.

A detailed description of the services typically offered in this level of care, the care setting and how to identify which recipients would benefit best from these services based on an ASAM dimensional needs assessment, is described in the most recent publication of the ASAM criteria.

**Eligible Staff:** See ADMH Administrative Code.

**SAS Reporting Code:** **H0018:HF, HF:HV, HF:H9, or HF:HZ – Adult**  
**H0018:HF:HH – Co-Occurring**  
**H0018:HF:HD – Special Women’s**  
**H0018:HF:HA - Adolescent**

**SAS Reporting Unit:** 1 day

**SAS Contract Billing Rate:** \$145.00 Adult  
\$190.00 Adolescent, Special Women’s Co-Occurring Enhanced

**Maximum Billable Unit(s):** The maximum units billable in one day cannot exceed the number of certified beds.

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD).

**Location:** In a residential structure that complies with all applicable federal, state, and local codes.

## **LEVEL 3.7-WM MEDICALLY MONITORED INPATIENT WITHDRAWAL MANAGEMENT**

**Definition:** Level 3.7-WM is an organized service delivered by medical and nursing professionals, which provides 24-hour medically supervised evaluation and withdrawal management in a permanent facility with inpatient beds. Services are delivered under a defined set of physician-approved policies and physician-monitored procedures or clinical protocols. This level provides care to recipients whose withdrawal signs and symptoms are sufficiently severe to require 24-hour inpatient care with observation, monitoring and treatment being available. If SOR modifier is used, transition plan must include the use of extended release naltrexone.

A detailed description of the services typically offered in this level of care, the care setting and how to identify which recipients would benefit best from these services based on an ASAM dimensional needs assessment, is described in the most recent publication of the ASAM criteria.

**Eligible Staff:** See ADMH Administrative Code.

**SAS Reporting Code:** **H0011:HF, HF:GZ, HF:HV, HF:HZ, HF:SR, HF:H9:SR, HF:HD:SR, HF:HH:SR or HF:HZ:SR – Adult**

**SAS Reporting Unit:** 1 day

**SAS Contract Billing Rate:** Determined per agency

**SAS Reporting Combination Restrictions:** Must be actively enrolled in an ADMH certified substance use disorder treatment program. Cannot be billed in conjunction with a bundled/residential rate (MH, SA or DD).

**Maximum Billable Unit(s):** 1 per day

**Location:** In a residential structure that complies with all applicable federal, state, and local codes.

## Opioid Use Disorder Treatment

### (Formerly termed Methadone Treatment)

Definition: For the purposes of this definition and billing code, the medications referenced are methadone and buprenorphine. Opioid Use Disorder Treatment is defined as the administration of medication to recipients who have a diagnosed opioid use disorder. Medication is administered to support the recipient's efforts to restore adequate functioning in major life areas that have been debilitated as a result of opioid addiction. This service includes medication administration and concurrent related medical and clinical services. Treatment with the use of methadone or buprenorphine is designed to offer the recipient an opportunity to effect constructive changes in his/her life through the provision of medication assistance in conjunction with counseling and medical services.

Eligible Staff: See ADMH Administrative Code.

SAS Reporting Code: **H0020:HF, HF:HD, HF:HG, HF:HH, HF:HD:HG, HF:HH:HG

**Location:** Services can be delivered in any setting that is acceptable for both the recipient and staff member, that affords an adequate therapeutic environment, and that protects the recipient's rights to privacy and confidentiality.

## **BEHAVIORAL HEALTH OUTREACH SERVICE**

Definition: Behavioral health outreach services are a planned approach to reach a targeted population. Contracted providers must use outreach models that are scientifically sound. Federal regulations identify three examples of scientifically sound models that may be used. They are:

1. The Standard Intervention Model
2. The Health Education Model
3. The Indigenous Leader Model

No one model fits all communities or all situations. If none of the models listed above are applicable to the local situation, the contracted provider may use an approach which reasonably can be expected to be effective and which has been approved, in writing, by ADMH. When other models are used, the providers must show how, within that community, the chosen model has the expectation to be effective.

As outreach demonstrates an agency’s willingness to go to the community rather than the community coming to it, providers must ensure that their outreach efforts:

- a. Consist of contracting, communicating with, and following up with high-risk substance abusers, their associates, and the neighborhood residents.
- b. Adhere to federal and state confidentiality requirements.
- c. Promote awareness about the relationship between injecting drug abuse and communicable diseases.
- d. Recommend steps that can be taken to prevent HIV transmission.
- e. Address the selection, training, and supervision of their outreach workers.
- f. Encourage recipient entry into treatment.

This service is not billed per recipient, it is billed (similar to prevention) on a “dummy” recipient that indicates services to unknown recipients.

Eligible Staff: May be conducted by staff who meets the qualifications for QSAP I, QSAP II, QSAP III, Qualified Paraprofessional, or Certified Recovery Support Specialist (CRSS).

## CASE MANAGEMENT

Definition: A case manager assists a recipient in identifying the recipient's goals, strengths and needs; plans with the recipient what services and community resources might help the recipient to accomplish the recipient's goals; helps refer (and often accompanies) the recipient to obtain services and resources; and then monitors and coordinates the services and resources received to assure that the recipient is getting the help needed to accomplish the recipient's goals and to address the recipient's needs.

These are the four service components to services that case managers provide to their recipients:

- Assessment
- Planning
- Referral and linkage
- Monitoring and coordination.

**ASSESSMENT:** Comprehensive assessment and periodic reassessment of recipient needs, to determine the need for any medical, educational, social or other services. These assessment activities include:

- taking recipient history;
- identifying the recipient's needs and completing related documentation; and
- gathering information from other sources such as family members, medical providers, social workers, and educators (if necessary), to form a complete assessment of the eligible recipient.

**Reassessment/follow-up** – The case manager shall evaluate, at intervals of six months or less, through interviews and observations, the progress of the recipient toward accomplishing the goals listed in the case plan. In addition, the persons and/or agencies providing services to the recipient will be contacted and the results of these contacts, together with the changes in need shown in the reassessments, will be utilized to accomplish any needed revisions to the case plan.

**PLANNING:** Development (and periodic revision) of a specific case plan, that is based on the information collected through the assessment, that:

- specifies the goals and actions to address the medical, social, educational, and other services needed by the recipient;
- includes activities such as ensuring the active participation of the eligible recipient, and working with the recipient (or the recipient's authorized health care decision maker) and others to develop those goals; and
- identifies a course of action to respond to the assessed needs of the eligible recipient;

**REFERRAL AND LINKAGE:** Referral and related activities (such as scheduling appointments for the recipient) to help the eligible recipient obtain needed services including:

- activities that help link the recipient with medical, social, and educational providers, or other programs and services that are capable of providing needed services to address identified needs and achieve goals specified in the case plan; and

**MONITORING AND COORDINATION:** Monitoring and follow-up activities include:

- activities and contacts that are necessary to ensure the case plan is implemented and adequately addresses the eligible recipient’s needs, and which may be with the recipient, family members, service providers, or other entities or recipients and is conducted as frequently as necessary, and including at least one annual monitoring, to determine whether the following conditions are met:
  - services are being furnished in accordance with the recipient’s case plan;
  - services in the case plan are adequate; and
  - changes in the needs or status of the recipient are reflected in the case plan.
 Monitoring and follow-up activities include making necessary adjustments in the case plan and service arrangements with providers.

**Eligible Staff:**

Staff members who have successfully completed an ADMH, OSATS, approved Case Manager Training program and who meet the qualifications of a QSAP I, QSAP II QSAP III, QPP or Certified Recovery Support Specialist (CRSS).

**SAS Reporting Codes:**

**H0006:HF, HF:HD, HF:HG, HF:HH, HF:HV, H0006:HF:TB, HF:HZ or HF:H9 - Adult

**Location:** Services can be delivered in any setting that is acceptable for both the recipient and staff member, that affords an adequate therapeutic environment, and that protects the recipient's rights to privacy and confidentiality.

## Case Management

### Targeted Case Management – SOR Only

**Definition:** A case manager assists a recipient in identifying the recipient's goals, strengths and needs; plans with the recipient what services and community resources might help the recipient to accomplish the recipient's goals; helps refer (and often accompanies) the recipient to obtain services and resources; and then monitors and coordinates the services and resources received to assure that the recipient is getting the help needed to accomplish the recipient's goals and to address the recipient's needs.

These are the four service components to services that case managers provide to their recipients:

- Assessment
- Planning (includes the use of ADMH approved Human Services Needs Assessment)
- Referral and linkage
- Monitoring and coordination.

**ASSESSMENT:** Comprehensive assessment and periodic reassessment of recipient needs, to determine the need for any medical, educational, social or other services. These assessment activities include:

- taking recipient history;
- identifying the recipient's needs and completing related documentation; and

Location: Services can be delivered in any setting that is acceptable for both the recipient and staff member, that affords an adequate therapeutic environment, and that protects the recipient's rights to privacy and confidentiality.

## CASE MANAGEMENT

### Targeted Case Management – Medicaid Recipients Only (Target 9)

Definition – Medicaid TCM-9: Case management services are comprehensive services that assist eligible individuals in gaining access to needed medical, social, educational and other services. Targeted Case Management (TCM) services assist specific eligible recipients, or targeted individuals, to access other services.

Target Group 9 consists of Medicaid-eligible individuals who have a diagnosed substance use disorder or substance induced disorder, in accordance with criteria set forth by the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM) published by the American Psychiatric Association, and who meet the following additional criteria.

- (1) Individuals who:
  - (a) Have been unable to independently maintain a sustained period of recovery after repeated treatment episodes; or
  - (b) Have little or no access to community resources necessary to support sustained recovery efforts; or
  - (c) Have co-morbid conditions, as mental illness, emotional disorders, intellectual disabilities, medical conditions, sensory impairments, or mobility impairments; or
  - (d) Have significant responsibility for the care of dependents, as well as themselves.

#### Core Services – Medicaid TCM-9:

- Needs assessment
- Case planning
- Service arrangement
- Social support
- Reassessment and follow-up
- Monitoring

**ASSESSMENT:** Comprehensive assessment and periodic reassessment of recipient needs, to determine the need for any medical, educational, social or other services. These assessment activities include:

- taking recipient history;
- identifying the recipient's needs and completing related documentation; and
- gathering information from other sources such as family members, medical providers, social workers, and educators (if necessary), to form a complete assessment of the eligible recipient.

Reassessment/follow-up – The case manager shall evaluate, at intervals of six months or less,

through interviews and observations, the progress of the recipient toward accomplishing the goals listed in the case plan. In addition, the persons and/or agencies providing services to the recipient will be contacted and the results of these contacts, together with the changes in need shown in the reassessments, will be utilized to accomplish any needed revisions to the case plan.

#### NEEDS ASSESSMENT – Medicaid TCM-9:

A TCM provider performs a written comprehensive assessment of the recipient's assets, deficits, and needs. The TCM provider gathers the following information:

- Identifying information
- Socialization and recreational needs
- Training needs for community living
- Vocational needs
- Physical needs
- Medical care concerns
- Social and emotional status
- Housing and physical environment
- Resource analysis and planning

**PLANNING:** Development (and periodic revision) of a specific case plan, that is based on the information collected through the assessment, that:

- specifies the goals and actions to address the medical, social, educational, and other services needed by the recipient;
- includes activities such as ensuring the active participation of the eligible recipient, and working with the recipient (or the recipient's authorized health care decision maker) and others to develop those goals; and
- identifies a course of action to respond to the assessed needs of the eligible recipient;

#### CASE PLANNING – Medicaid TCM-9:

TCM providers must develop a systematic, recipient-coordinated plan of care that lists the actions required to meet the identified needs of the recipient based on the needs assessment. The plan is developed through a collaborative process involving the recipient, his family or other support system, and the case manager. It must be completed in conjunction with the needs assessment within the first 30 days of contact with the recipient.

**REFERRAL AND LINKAGE:** Referral and related activities (such as scheduling appointments for the recipient) to help the eligible recipient obtain needed services including:

- activities that help link the recipient with medical, social, and educational providers, or other programs and services that are capable of providing needed services to address identified needs and achieve goals specified in the case plan; and

### SERVICE ARRANGEMENT – Medicaid TCM-9:

Through linkage and advocacy, the case manager coordinates contacts between the recipient and the appropriate person or agency. These contacts may be face to face, phone calls, or electronic communication.

**MONITORING AND COORDINATION:** Monitoring and follow-up activities include:

- activities and contacts that are necessary to ensure the case plan is implemented and adequately addresses the eligible recipient’s needs, and which may be with the recipient, family members, service providers, or other entities or recipients and is conducted as frequently as necessary, and including at least one annual monitoring, to determine whether the following conditions are met:
  - services are being furnished in accordance with the recipient’s case plan;
  - services in the case plan are adequate; and
  - changes in the needs or status of the recipient are reflected in the case plan.Monitoring and follow-up activities include making necessary adjustments in the case plan and service arrangements with providers.

### MONITORING – Medicaid TCM-9:

The case manager determines what services have been delivered and whether they adequately meet the needs of the recipient. The plan of care may require adjustments as a result of monitoring.

### SOCIAL SUPPORT – Medicaid TCM-9:

Through interviews with the recipient and significant others, the case manager determines whether the recipient possesses an adequate personal support system. If this personal support system is inadequate or nonexistent, the case manager assists the recipient in expanding or establishing such a network through advocacy and linking the recipient with appropriate persons, support groups, or agencies.

### REASSESSMENT AND FOLLOW UP – Medicaid TCM-9:

Through interviews and observations, the case manager evaluates the recipient’s progress toward accomplishing the goals listed in the case plan at intervals of six months or less. In addition, the case manager contacts persons or agencies providing services to the recipient and reviews the results of these contacts, together with the changes in the recipient’s needs shown in the reassessments, and revises the case plan if necessary.

### Eligible Staff – Medicaid TCM-9

Staff members who have successfully completed an ADMH, OSATS, approved Case Manager Training program **and** who possess a minimum of a Bachelor of Arts or a Bachelor of Science degree, preferably in a human services related field or social work program.

## TUBERCULOSIS RISK SCREENING AND INTERVENTION

**Definition:** Implementation of effective TB prevention and control measures in substance use disorder treatment programs is essential for reduction of TB rates among the general U.S. population and for maintaining the gains made in this area during the past several years. Thus, as part of its TB prevention and control efforts, the Alabama Department of Mental Health is requiring utilization of the Tuberculosis Risk Screening Questionnaire (TRSQ) in each of its contract substance use disorder treatment programs.

**Eligible Staff:** Each agency shall establish the qualifications of its staff to administer the TRSQ. If nonmedical personnel administer the TRSQ, medical staff consultation shall be readily accessible.

**SAS Reporting Code, SAS Reporting Unit, SAS Contract Billing Rate, Maximum Billable Unit(s):**

# PREVENTION

## PREVENTION

Definition: A proactive process that empowers recipients and systems to meet the challenges of life events and transitions by creating and reinforcing conditions that promote healthy behaviors and lifestyles. The goal of substance abuse prevention is the fostering of a climate in which alcohol use is acceptable only for those of legal age and only when the risk of adverse consequences is minimal; prescription and over-the counter drugs are used only for the purposes for which they were intended; other substances that may be abused and not used for their purposes such as aerosols, paint thinners, glue, etc. and other illegal drugs and tobacco are not used at all.

Eligible Staff: See Standards

Reporting Unit: 15 minutes

### PREVENTION DEFINITIONS

#### (50% of the overall prevention budget will be allocated for Environmental strategies)

- 1) Information Dissemination (**H0024**): This strategy involves one-way communication between the source and the audience, with limited contact between the two. This strategy provides information about drug use, abuse and addiction and the effects on recipients, families and communities. It also provides information on available prevention programs and services. Examples of this strategy include: brochures, pamphlets, posters, & flyers; clearinghouse/information resource centers; community resource directories; health fairs and other health promotion; information lines/hot lines; information through websites; information based media campaign; media campaigns; newspaper and newsletter articles; radio and television public service announcements; and speaking engagements. This strategy may be used in conjunction with other strategies, practices and policies to have efficacy in communities.

Contract Billing Rate: \$12.75 per 15 minute unit<sup>1</sup>

- 2) Environmental Approaches (**H0025**): This strategy seeks to establish or change community standards, codes and attitudes, thereby influencing the substance use in the general population. Examples of this strategy include: changing norms or attitudes about ATOD; changing public perceptions and norms about youth and their capabilities; changing school norms and attitudes to increase a positive school climate; media strategies to assure balanced responsible reporting about you; vendor education or business practices that promote health; promoting the establishments or review of alcohol, tobacco and drug use policies in schools; guidance and technical assistance on monitoring enforcement governing availability and distribution of alcohol, tobacco and other drugs; modifying alcohol and tobacco advertising practices; and product pricing strategies. This strategy may

---

<sup>1</sup> All rates include costs for salaries & benefits. Rates do not include travel, operating expense/admin and equipment, which will continue to be a separate line item.

be used in conjunction with other strategies, practices and policies to have efficacy in communities.

Environmental strategies focus on the cause and the conditions of the community environment that are:

- Changing economic conditions (How much things cost; how available things are);
- Changing social conditions (What people think; how people live);
- Changing media conditions (what people read, watch, hear, and see); and
- Changing political conditions (Who has power; who has influence)

Environmental strategies also focus on changing the norms and regulations that influence/control the social and physical contexts of the use of alcohol, tobacco and other drugs.

Environmental strategies cannot be solely used for meetings, information dissemination or community awareness campaigns.

Contract Billing Rate:            \$21.39 per 15 minute unit

- 3) **Community-Based Processes (H0026):** This strategy aims to enhance the ability of the community to provide more effective prevention and treatment services for substance abuse disorders by including activities such as organizing, planning, interagency collaboration, coalition building and networking. Effective organizing and planning are paramount to the success of prevention practices, policies and programs. Examples of this strategy include: efforts to decrease barriers to services; youth-adult partnerships addressing community issues; needs assessments & community readiness surveys; community and volunteer training; cross-systems planning; multi-agency coordination and collaboration/coalition; community team building activities; accessing services and funding; and coalitions, collaborations and/or wellness teams. This strategy may be used in conjunction with other strategies, practices and policies to have efficacy in communities. This strategy cannot be solely used for meetings, information dissemination or community awareness campaigns.

Contract Billing Rate:            \$13.75 per 15 minute unit

- 4) **Education (H0027):** This strategy involves two-way communication and is distinguished from merely disseminating information by the fact that it is based on an interaction between the educator and the participants. Activities under this strategy aim to affect critical life and social skills, including decision making, refusal, and critical analysis skills. Examples of this strategy include: community service activities; interactive technologies; community and volunteer workshops; parenting and family management classes; ongoing classroom and/or small group sessions; peer leader/peer helper programs; education programs for youth groups; children of substance abusers groups; and life skills. This strategy may be used in conjunction with other strategies, practices and policies to have efficacy in communities.

Contract Billing Rate:            \$3.50 per 15 minute unit                            H0027

stand alone program (1 domain, 1 location)

\$12.75 per 15 minute unit                      H0027:HF  
2 or more strategies in different domains with the same target  
population during business hours (8am-3pm Monday-Friday).

\$21.39 per 15 minute unit                      H0027: HF:HA  
2 or more strategies in different domains with the same target  
population after business hours, weekends, summer and spring  
breaks.

- 5) Problem Identification and Referral (**H0028**): This strategy aims to identify those who have indulged in the use of illicit drugs or underage use of tobacco and alcohol in order to determine whether their behavior can be reversed through education. This strategy does not include any activity designed to determine whether a recipient is in need of treatment. Examples of this strategy include: alcohol information schools; crisis lines or hotlines; depression and mental health screening programs; driving while intoxicated education programs; driving while under the influence/while intoxicated programs; Employee Assistance Programs; nicotine use and addiction screening; Student Assistance Programs; and support groups, talking/healing circles. This strategy may be used in conjunction with other strategies, practices and policies to have efficacy in communities.

Contract Billing Rate:                      \$15.00 per 15 minute unit

- 6) Alternatives (**H0029**): Evidence does not support the use of an alternative strategy as a sole prevention strategy with the intended target population. Alternatives can and should be used as a part of a comprehensive plan to make lives richer and healthier. The goal of this strategy is to have target populations participate in activities that are alcohol, tobacco, and other drug free in nature and incorporate educational messages. Examples of this strategy include: community service activities; culturally-based activities; drug free dances and parties; intergenerational events and celebrations; job shadowing, internships, work place experiences; leadership activities; mentoring programs; Outward Bound; recognition events that celebrate recipient or group accomplishments; social & recreation activities; youth centers & community drop-in centers. This strategy may be used in conjunction with other strategies, practices and policies to have efficacy in communities.

Contract Billing Rate:                      \$3.50 per 15 minute unit                      H0029  
stand alone program (1 domain, 1 location)

\$12.75 per 15 minute unit                      H0029:HF  
2 or more strategies in different domains with the same target  
population during business hours (8am-3pm Monday-Friday).

\$21.38 per 15 minute unit                      H0029: HF:HA

2 or more strategies in different domains with the same target population after business hours, weekends, summer and spring breaks

An approved Plan must be on file prior to the implementation and reimbursement of strategies. Documentation of strategies must be facilitated on an ongoing basis and data entered in the information management system (ASAIS). Supporting documentation must be maintained by the provider of services in accordance with the guidelines within the Prevention Standards.
