

APPENDIX K: Emergency Preparedness and Response and COVID-19 Addendum

Background:

This standalone appendix may be utilized by the state during emergency situations to request amendments to its approved waiver, to multiple approved waivers in the state, and/or to all approved waivers in the state. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.¹ This appendix may be applied retroactively as needed by the state. Public notice requirements normally applicable under 1915(c) do not apply to information contained in this Appendix.

Appendix K-1: General Information

General Information:

A. State: ALABAMA

B. Waiver Title(s): AL Home and Community-Based Waiver for Persons with Intellectual Disabilities (ID)
AL HCBS Living at Home Waiver for Persons w/ID (LAH)

C. Control Number(s): ID 0001.R08.04
LAH 0391.03.04

D. Type of Emergency (The state may check more than one box):

<input checked="" type="checkbox"/>	Pandemic or Epidemic
<input type="checkbox"/>	Natural Disaster
<input type="checkbox"/>	National Security Emergency
<input type="checkbox"/>	Environmental
<input type="checkbox"/>	Other (specify):

E. **Brief Description of Emergency.** *In no more than one paragraph each*, briefly describe the: 1) nature of emergency; 2) number of individuals affected and the state’s mechanism to identify individuals at risk; 3) roles of state, local and other entities involved in approved waiver operations; and 4) expected changes needed to service delivery methods, if applicable. The state should provide this information for each emergency checked if those emergencies affect different geographic areas and require different changes to the waiver.

COVID-19 pandemic. This Appendix K is additive to the approved Appendix K and includes the following modifications:

- Removes the request for a modification to limitations on the number of participants served with Residential Habilitation in each certified home. The State has determined that the number of participants cannot exceed the number for which the home is certified by ADMH Office of Certification, pursuant to Life Safety requirements.
- Retroactively applies the length of retainer payments to three consecutive 30-day episodes of payments with no breaks in payment, beginning on March 15, 2020; specifies that retainer payments will be set at 100% of the full rate for the eligible services that would have otherwise been provided; and ensures the guardrails requirements are implemented.
- Temporarily increases the annual limit for specialized medical supply costs from \$1800 to \$2400 per individual.
- Waives the requirement for licensed health care provider orders for PPE supplies or for Assistive Technology such as I-pad-type tablets or other devices needed to access virtual services, but requires that a specific request is made via Support Coordination through the established request process and approval granted. The request must provide a justification to demonstrate that the PPE and Assistive Technology requested are appropriate and individualized to the person's needs, and receipts for approved expenditures must be kept on file.
- Retroactively adds Self-Directed Personal Care to the list of permitted provider types that may work overtime if this is required due to issues related to the COVID-19 pandemic
- Effective as of July 31, 2020, removes Supported Employment Small Group from the list of permitted self-directed provider types that may work overtime if this is required due to issues related to the COVID-19 pandemic, which has not been necessary or utilized since the submission of the original Appendix K.

All modifications apply to both the ID and LAH waivers.

F. Proposed Effective Date: Start Date: January 27, 2020
Anticipated End Date: January 26, 2021

G. Description of Transition Plan.

All activities will take place in response to the impact of COVID-19 as efficiently and effectively as possible based upon the complexity of the change.

H. Geographic Areas Affected:

These actions will apply across the waiver to all individuals impacted by the COVID-19 virus

I. Description of State Disaster Plan (if available) *Reference to external documents is acceptable:*

N/A

Appendix K-2: Temporary or Emergency-Specific Amendment to Approved Waiver

Temporary or Emergency-Specific Amendment to Approved Waiver:

These are changes that, while directly related to the state's response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.

b. X Services

i. X Temporarily modify service scope or coverage.

[Complete Section A- Services to be Added/Modified During an Emergency.]

ii. X Temporarily exceed service limitations (including limits on sets of services as described in Appendix C-4) or requirements for amount, duration, and prior authorization to address health and welfare issues presented by the emergency.

[Explanation of changes]

ID and LAH: When circumstances related to COVID-19 diagnoses or potential contact require it, and upon explicit approval by the Operating Agency, the State will permit temporary increases beyond the currently defined waiver service caps and limitations to allow the needed amount, duration or change in scope within the Waiver to effectively address emergent health, safety and welfare-related needs of participants. The temporary modifications described below apply to the following services, as applicable: Residential Habilitation, Personal Care, Adult Companion, and Respite.

- Minimum staffing ratios in Residential Habilitation settings may be exceeded due to staffing shortages so long as the health and safety of participants is preserved and required minimum staffing ratios are implemented as often and as soon as possible. Any modification to the minimum staffing ratio allowed for any home will be dependent on the individual needs of the participants residing there and will require explicit approval by designated Operating Agency staff. In no case will a Residential Habilitation setting operate without staff on-site.
- Any previously authorized Personal Care or Adult Companion services, or any combination of these services, may be modified up to a maximum of 18 hours per day without requesting a variance in order to meet the needs of the participants.
- Respite services, including any combination of In-Home or Out-of-Home Respite, may exceed the fiscal year limit of 4320 units.
- The annual limit for Specialized Medical Supplies may exceed the existing limit of \$1,800.00 up to a temporary limit of \$2,400.00. If an exception is required due to issues related to the COVID-19 pandemic, a specific request must be made via Support Coordination through the established request process.

The Support Coordinator and/or the service provider/self-directed Employer of Record (EOR) will be responsible to review and substantiate a need and capacity to increase traditional Waiver services to effectively address emergent health, safety and welfare-related needs of program participants during the COVID-19 pandemic. Emergency modifications to a participant's person-centered plan must be both reasonable and necessary. The Operating Agency will perform retrospective reviews to assure that fraud, waste and program abuse do not occur as a result of this emergency response measure.

Temporarily allow verbal orders from a physician or other licensed health care provider for non-prescription Specialized Medical Supplies waiver services authorized in an individual's care plan as of the date of the COVID 19 PHE, including adult protective undergarments, catheter bags, and other supplies covered under that service, and for nonprescription Assistive Technology authorized in an individual's care plan as of the date of the COVID-19 PHE. Licensed health care provider orders will not be required for PPE supplies or for Assistive Technology provided under the waiver such as I-pad-type tablets or other devices to access virtual services. However, any such expenditures require that a specific request is be made via Support Coordination through the established request process and approval granted. The request must provide a justification to demonstrate that the PPE and/or Assistive Technology requested are appropriate and individualized to the person's needs, and receipts for approved expenditures must be kept on file. This modification will be in effect beginning March 13, 2020 and extend through the end of the month in which the PHE terminates, not to exceed the end date of the approved Appendix K.

d. Temporarily modify provider qualifications (for example, expand provider pool, temporarily modify or suspend licensure and certification requirements).

ID and LAH:

Provider staff training qualifications may be modified as follows:

- Required staff training for beginning employment, including Nurse Delegation Program training, may be conducted on-line, by telephone, or electronically, as appropriate.
- Any staff persons not fully trained must work under supervision of a fully trained staff person.
- Annual refresher training of staff due through 7/1/2020 may be postponed until 10/1/20, and may be conducted on-line, by telephone, or electronically, as appropriate.

These modifications apply to the following services and provider types:

Adult Companion Services	Certified Waiver Hourly Services Provider
Skilled Nursing	Alabama-licensed LPN
Personal Care	Certified Waiver Hourly Services Provider (including Personal Care Workers) / Self-Directed Personal Care Workers
Positive Behavior Support	Individual employed or contracted by a certified agency (Level 1 Professional, Certified Level 2 Professional Level 3 Technician)
Residential Habilitation	Certified Residential Facility (includes BCBA, QIDP, Direct Support Staff)
Respite	Certified Waiver Hourly Services Provider (for in-home respite) Self-Directed In-home Respite Services Out of Home Respite, Community Residential Facility

- For Residential Habilitation, Adult Companion or Personal Care services, if family members are temporarily approved to provide these services in order to cover gaps in care resulting from issues related to the COVID-19 pandemic, the Operating Agency will temporarily suspend routine employee screening for said family members (e.g., TB, background checks, drug screens). Suspension of said screenings is temporary, and all required screenings will be required to be

completed once the emergency period ends.

f._X Temporarily increase payment rates. [Provide an explanation for the increase. List the provider types, rates by service, and specify whether this change is based on a rate development method that is different from the current approved waiver (and if different, specify and explain the rate development method). If the rate varies by provider, list the rate by service and by provider.]

ID and LAH:

- Temporarily increase Residential Habilitation rates by 19% for all providers, to account for greater needs for staffing and direct service, given the suspension of Day services, including Day Habilitation, Prevocational Services, and Community Experience. This rate increase will begin on March 1, 2020 and will extend through the end of the month in which the PHE terminates, not to exceed the end date of the approved Appendix K.
- Temporarily increase rates for the following services to account for excessive overtime pay for direct support personnel, to cover staffing needs in the event of unusual numbers of sick employees and to account for additional infection control supplies (including personal protective equipment (PPE)) and service costs: Personal Care (including Self-Directed Personal Care), Adult Companion, Respite, and Skilled Nursing (LPN Nursing and RN Nursing.) The rate setting methodology remains the same. Upward adjustments are made to account for the supply costs and anticipated overtime for direct support personnel. Resulting temporary rate increases will not exceed 50%. The exact increase will be determined based on current market factors and substantiated, additional costs incurred by providers. This rate increase will begin on March 1, 2020 and extend through the end of the month in which the PHE terminates, not to exceed the end date of the approved Appendix K.
- Self-directed employees may not work more than 16 hours per day, and the sum total of their hours worked in a given week cannot exceed 40. If an exception is required due to issues related to the COVID-19 pandemic, a specific request must be made via Support Coordination through the established request process. In the event an exception is made to allow overtime, the Operating Agency will permit, with documentation of substantiated need, overtime work to allow the needed amount, duration or change in scope within the Waiver to effectively address emergent health, safety and welfare-related needs of participants during the COVID-19 pandemic. This change applies to the following self-directed services: Personal Care, Adult Companion, Respite and Skilled Nursing (LPN Nursing and RN Nursing.)

List of Provider Types and Rates by Service

Service	Base Rate	New Overtime Rate
Adult Companion Services	\$3.12	\$4.68
LPN Nursing per hour	\$20.80	\$31.20
Personal Care	\$4.12	\$6.18
Respite In Home	\$3.12	\$4.68
Respite Out of Home	\$3.12	\$4.68
RN Nursing per hour	\$36.40	\$54.60
Self-Directed Personal Care	\$4.12	\$5.22
Self-Directed Adult Companion	\$2.75	\$4.13
Self-Directed LPN	\$20.80	\$31.20
Self-Directed RN	\$36.40	\$54.60
Supported Employment Small Group	\$3.84	\$5.76

j. X **Temporarily include retainer payments to address emergency related issues.**[Describe the circumstances under which such payments are authorized and applicable limits on their duration. Retainer payments are available for habilitation and personal care only.] **ID and LAH:** In response to the defined emergency, and in order to maintain a viable workforce, the state may elect to make retainer payments to waiver providers. Retainer payments are for direct care providers who normally provide services that include habilitation that have a personal care component (Day Habilitation, Prevocational Services, Community Experience, and/or Supported Employment – Small Group), but are currently unable to due to complications experienced during the COVID-19 pandemic (i.e., because the program has been directed to close and the provider cannot enter the participant’s home or otherwise provide services through other electronic platform.) The State confirms that retainer payments are for direct care providers who normally provide services that include habilitation that includes a component of personal care and personal care, but are currently unable to due to complications experienced during the COVID-19 pandemic because the waiver participant is sick due to COVID-19; or the waiver participant is sequestered and/or quarantined based on local, state, federal and/or medical requirements/orders. The personal assistance retainer will begin March 15, 2020, and will consist of three consecutive 30-day episodes of payments, with no break in billing, for any individual impacted, as described above, during the period of the disaster. The rate for retainer payments will be set at 100% of the full rate for the eligible services that would have otherwise been provided.

The state will implement a distinguishable process to monitor payments to avoid duplication of billing, including ensuring the requirement of the following guardrails have been met.

- Limit retainer payments to a reasonable amount and ensure their recoupment if other resources, once available, are used for the same purpose. In terms of setting a reasonable amount, a retainer payment cannot exceed the payment for the relevant service; the state may specify that a retainer payment will be made at a percentage of the current rate, or a state may specify retainer payments will not be made to a setting until attendance is below an identified percentage of the enrollment (e.g., 75 percent).
- Collect an attestation from the provider acknowledging that retainer payments will be subject to recoupment if inappropriate billing or duplicate payments for services occurred (or in periods of disaster, duplicate uses of available funding streams), as identified in a state or federal audit or any other authorized third party review. Note that “duplicate uses of available funding streams” means using more than one funding stream for the same purpose.
- Require an attestation from the provider that it will not lay off staff, and will maintain wages at existing levels.
- Require an attestation from the provider that they had not received funding from any other sources, including but not limited to unemployment benefits and Small Business Administration loans, that would exceed their revenue for the last full quarter prior to the PHE, or that the retainer payments at the level provided by the state would not result in their revenue exceeding that of the quarter prior to the PHE.

- If a provider had not already received revenues in excess of the pre-PHE level but receipt of the retainer payment in addition to those prior sources of funding results in the provider exceeding the pre-PHE level, any retainer payment amounts in excess would be recouped.
- If a provider had already received revenues in excess of the pre-PHE level, retainer payments are not available.

If the state determines that any provider has received retainer payments under circumstances contrary to the guardrails, the payments will be recouped.

Appendix K Addendum: COVID-19 Pandemic Response

1. HCBS Regulations

- a. Not comply with the HCBS settings requirement at 42 CFR 441.301(c)(4)(vi)(D) that individuals are able to have visitors of their choosing at any time, for settings added after March 17, 2014, to minimize the spread of infection during the COVID-19 pandemic. (ID, LAH)

2. Services

- a. Add an electronic method of service delivery (e.g., telephonic) allowing services to continue to be provided remotely in the home setting for:
 - i. Case management (ID, LAH)
 - ii. Personal care services that only require verbal cueing (ID, LAH)
 - iii. In-home habilitation (ID, LAH)
 - iv. Monthly monitoring (i.e., in order to meet the reasonable indication of need for services requirement in 1915(c) waivers). (ID, LAH)
 - v. Other *[Describe]*:

ID/LAH: Behavior Supports Professionals, Nurses, and Occupational, Physical & Speech/Language Therapists

- b. Add home-delivered meals
- c. Add medical supplies, equipment and appliances (over and above that which is in the state plan)
- d. Add Assistive Technology

3. Conflict of Interest: The state is responding to the COVID-19 pandemic personnel crisis by authorizing case management entities to provide direct services. Therefore, the case management entity qualifies under 42 CFR 441.301(c)(1)(vi) as the only willing and qualified entity.

- a. Current safeguards authorized in the approved waiver will apply to these entities.
- b. Additional safeguards listed below will apply to these entities.

This provision applies only to those case management entities that have not yet completed de-confliction activities. Case management entities that are already in de-conflicted status may not provide direct services.

4. Provider Qualifications

- a. Allow spouses and parents of minor children to provide personal care services (ID, LAH)
- b. Allow a family member to be paid to render services to an individual. (ID: Applies to Personal Care, Adult Companion and Residential Habilitation services. LAH: Applies to Personal Care and Adult Companion services.)
- c. Allow other practitioners in lieu of approved providers within the waiver. [*Indicate the providers and their qualifications*] (ID, LAH)

For the following provider types, temporarily waive requirements for out-of-state providers to be certified and located in Alabama, so long as they are actively licensed/certified by another state's Medicaid agency and so long as they provide services required to cover gaps in care resulting from issues related to the COVID-19 pandemic: RN, LPN, Psychologist, Board Certified Behavior Analyst or Assistant, Occupational Therapist, Physical Therapist, Speech/Language Therapist.

- d. Modify service providers for home-delivered meals to allow for additional providers, including non-traditional providers.

5. Processes

- a. Allow an extension for reassessments and reevaluations for up to one year past the due date. (ID, LAH)
- b. Allow the option to conduct evaluations, assessments, and person-centered service planning meetings virtually/remotely in lieu of face-to-face meetings. (ID, LAH)
- c. Adjust prior approval/authorization elements approved in waiver. (ID, LAH)
- d. Adjust assessment requirements (ID, LAH)
- e. Add an electronic method of signing off on required documents such as the person-centered service plan. (ID, LAH)

Section A---Services to be Added/Modified During an Emergency

Complete for each service added during a time of emergency. For services in the approved waiver that the state is temporarily modifying, enter the entire service definition and highlight the change. State laws, regulations and policies referenced in the specification should be readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Complete for each service added during a time of emergency. For services in the approved waiver which the state is temporarily modifying, enter the entire service definition and highlight the change. State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Note: Modifications for this additive request are highlighted in blue.

Service Specification

Service Title: Residential Habilitation (ID)

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Residential Habilitation service is a type of residential service selected by the person supported, offering individualized services and supports that enable the person supported to acquire, retain, or improve skills necessary to reside in a community-based setting and which supports each resident's independence and full integration into the community, and ensures each resident's choice and rights. Residential Habilitation services shall be provided in a dwelling which may be rented, leased, or owned by the Residential Habilitation provider, and shall comport fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, and set forth in the person-centered plan and plan of care. Participants receiving residential services should have enforceable leases agreed upon and signed by the individual and he/she is entitled to file an appeal, as needed and are regarded similarly as those without disabilities in respect to signed lease/rental agreements. Freedom of choice also includes the right to select any provider with an active provider agreement with the Department of Mental Health Division of Developmental Disabilities if the provider is available, willing, and able to provide the services needed, and choice of the setting in which services and supports are received which shall be integrated in, and support full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree of access as individuals not receiving Medicaid HCBS. The individual has the right to a rental agreement that is fully enforceable.

1) Residential Habilitation services provide care, supervision, and skills training in activities of daily living, home management and community integration. All settings that are so required must have appropriate site and programmatic certification from the Operating Agency.

Residential Habilitation activities must relate to identified, planned goals. Training and supervision of staff by a QIDP shall assure the staff is prepared to carry out the necessary training and support functions to achieve these goals. Initial training requirements must be met prior to the staff beginning work. For recipients living in certified residences, staff must be trained regarding the individual's person-centered plan prior to beginning work with the recipient. The following temporary modifications apply: Required staff training for beginning employment, including Nurse Delegation Program training, may be conducted on-line, by telephone, or electronically, as appropriate. Any staff persons not fully trained must work under supervision of a fully trained staff person. Annual refresher training of staff due through 7/1/2020 may be postponed until 10/1/20, and may be conducted on-line, by telephone, or electronically, as appropriate

The service includes the following:

- a) Habilitation training and intervention in the areas of self-care, sensory/motor development, interpersonal skills, communication, behavior shaping and supports, community living skills, mobility, health care, socialization, community inclusion, money management, pursuit of leisure and recreational activities and household responsibilities. Training and intervention may consist of incidental learning in addition to formal training plans and will also encompass modification of the physical and/or social environment. This may mean changing factors that impede progress (i.e. moving a chair, substituting Velcro closures for buttons or shoe laces, helping to shift attitudes toward the individual being supported, opening a door for someone, etc.) and provision of direct support, as alternatives to formal habilitative training.

Habilitation supplies and equipment that are not considered as a waiver service (specialized medical supplies and specialized medical equipment) are not considered in the daily rate for residential services and should be included as room and board; transportation costs to transport individuals to day programs, social events or community activities when public transportation and/or transportation covered under the Medicaid state plan are not available will be included in payments made to providers of residential habilitation. Residential Habilitation service workers may transport individuals in their own vehicles as an incidental component of Residential rates.

Providers of Residential Habilitation must present proof certification of training and qualifications of staff delivering services in Specialized Medical Homes and/or in Specialized Behavioral homes to Certification and when staffing changes occur, must present proof to the CSD in the Regional Office. The provider of residential

service is responsible for checking both AMA and the OIG exclusion lists each month to ensure employee have not been debarred from providing Medicaid services. Documentation of the monthly checks is required.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Providers of Residential Habilitation must be certified by the Department of Mental Health. Small settings are encouraged. No new home will be certified for residence of more than six individuals. When circumstances related to COVID-19 diagnoses or potential contact require it, and upon explicit approval by the Regional Community Services (RCS) office, limitations on the number of participants served with Residential Habilitation in each certified home may be exceeded, but only when all other alternatives for supports have been exhausted. The DDD shall not certify programs or settings where there exists a cluster of such settings. Clusters shall be defined as multiple program or residential settings located on the same street, court, etc. where these type settings constitute more than twenty five percent (25%) of all settings. The DDD shall not certify programs or settings where two or more are directly next to one another or share a property line, regardless of whether these settings result in less than twenty-five (25%) percent of the total settings on a street, court, etc.

The service excludes services, directly or indirectly, provided by a member of the individual's immediate family; Routine care and supervision which would be expected to be provided by a family; Activities or supervision for which a payment is made by a source other than Medicaid; and Room and board costs. The following temporary modifications apply: As an alternative to self-direction, natural caregiver(s)/relative(s) may be hired by a certified provider agency to provide Residential Habilitation services and may be paid by that provider upon mutual agreement and completion of all standard training, including training on the participant's PCP. In this circumstance, the provider of Residential Habilitation is responsible for ensuring the service is provided as authorized in the PCP and that billing occurs in accordance with DDD requirements.

Also excluded:

Home accessibility modifications, when covered as a distinct service under the waiver may not be furnished to a individual in a provider setting. Residential Services shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for individuals with Intellectual Disabilities (ICFs/IID).

Provider Specifications

				Community Residential Facility

Specify whether the service may be provided by <i>(check each that applies):</i>	<input type="checkbox"/>	Legally Responsible Person	<input checked="" type="checkbox"/>	Relative/Legal Guardian
--	--------------------------	----------------------------	-------------------------------------	-------------------------

Provider Qualifications *(provide the following information for each type of provider):*

Provider Type:	License <i>(specify)</i>	Certificate <i>(specify)</i>	Other Standard <i>(specify)</i>
----------------	--------------------------	------------------------------	---------------------------------

Community Residential Facility	N/A	Al. Administrative Code Chapters 580-3-23 and 580-5-33.	<p>The Department of Mental Health, Division of Developmental Disabilities requires certification of programs delivering Residential Habilitation services. Standards are in Al. Administrative Code Chapters 580-3-23 and 580-5-33. An applicant wishing to provide Residential Habilitation Services must provide written statements of certification of the facility's compliance with fire and health standards where applicable and submit these and other documentation to the Division of Developmental Disabilities. When the application, supporting data, and site visit prove the program or service is in full compliance with certification requirements, a certificate will be issued by the Division of Developmental Disabilities. Subsequent site inspections shall be scheduled in accordance with policy and procedures of the Department's Division of Technical Services. Programmatic re-surveys are conducted at one or two year intervals depending on the previous survey outcome. Annual and follow-up certification reviews of provider agencies will be suspended until 7/1/2020. Programs delivering Residential Habilitation services shall have a written mission statement for dissemination to prospective clients and their families. This mission statement shall address: Program philosophy and purpose; Geographical area served; Range of services provided; and Population served, including criteria for service eligibility, program admission and program discharge. Each Residential Habilitation program must develop and maintain appropriate, up-to-date staffing schedules for each facility. Program staff ratios and staff work schedules shall be maintained to meet the needs of clients. An emergency, on-call staff person, in addition to those normally required to maintain appropriate staffing patterns, shall be available. Staff scheduling and work place assignments shall be so arranged as to provide continuous on-site response capability in the event of individual needs. The staffing pattern shall be appropriate to the type and scope of programmed services and shall include staff members who meet qualifications set forth in the approved job descriptions. If a program is contracted to serve clients who require</p>
--------------------------------	-----	---	--

			<p>considerable guidance and supervision (i.e., moderately and severely physically disabled individuals, individuals who are aggressive, assaultive or are security risks, or clients who exhibit severely hyperactive or psychotic behavior), the daily ratio of training staff to clients may vary from 1:1 to 1:8, depending on programmatic and support need. This ratio shall be justified and documented. If a program is contracted to serve individuals requiring training or assistance in basic independent living skills, the training staff-to-client daily ratio shall not exceed 1:10. When circumstances related to COVID-19 diagnoses or potential contact require it, and upon explicit approval by the Regional Community Services (RCS) office, minimum staffing ratios in Residential Habilitation settings, as required by certification, service definition, and/or individual PCP, may be exceeded due to staffing shortages, so long as the health and safety of participants is preserved and required minimum staffing ratios are implemented as often and as soon as possible.</p> <p>Residential Aides must possess a high school diploma or its equivalency, must be able to perform the essential functions of the job and be able to follow plans of care. Residential Habilitation services will be delivered/supervised by a Qualified Intellectual Disabilities Professional in coordination with the individual's person centered plan. Residential providers must also demonstrate:</p> <ul style="list-style-type: none">• Ability and capacity to offer members regular (daily) opportunities to access the broader community.• Use of an individualized service planning process that ensures individual member goals are identified and used to guide service delivery and opportunities offered both in the facility and in the broader community.• Understanding and use of community mapping strategies to identify opportunities for community involvement and participation that align with each member's individualized interests and desires with regard to type(s) of community involvement and community contributions they prefer. <p>SPECIALIZED MEDICAL RESIDENTIAL SERVICES PROVIDER</p>
--	--	--	--

			<p>REQUIREMENTS 1. 24/7 LPN services. LPN serves as one of at least two staff on duty in a home with no more than 4 persons residing. LPN provides ongoing treatment and medical services and supports as identified by assessed needs of an RN, other Medical Professionals, and the person centered team. 2. RN services. The RN serves in an administrative capacity such as a Home Manager or QIDP. The RN provides clinical supervision to the LPN and oversees training, implementation and compliance with the Department of Mental Health's Nurse Delegation Program. Other duties may include serving as back-up staff in the absence of the LPN, procurement of needed specialized medical supplies and equipment, primary liaison between individuals receiving services and all required health care professionals, and annual nursing assessment, etc. 3. Physician services. The agency ensures that individuals have a primary care physician or group of physicians. The individual, their family, and/or their legal representative, to the extent possible, choose their primary care physician or group. The agency provides a comprehensive set of medical records to the primary care physician or group to include summary of current diagnoses, treatment modalities and their rationale, history of previous conditions and issues associated with current diagnoses and successful and failed treatments, etc. 4. Staff training. The agency ensures that all staff working with individuals supported are provided with specific training related to all aspects of person's medical situations, signs and symptoms related to specific conditions, and other specialized delegated treatments as outlined in the Nurse Delegation Program and Nurse Practice Act. 5. Medical needs. To qualify for a special medical services provider rate, individuals must have 3 or more medical conditions. SPECIALIZED BEHAVIORAL SERVICES PROVIDER REQUIREMENTS 1. Board Certified Behavior Analyst (BCBA) Services-Support Plan. The agency must employ or have access to a BCBA to complete the functional assessment for persons identified to need a Behavior Support Plan (BSP). A QIDP can</p>
--	--	--	---

			<p>write the plan based on the assessment. However, the BCBA should review and approve prior to review by the Behavior Program Review Committee (BPRC) and the Human Rights Committee (HRC). 2. BCBA-Medication Plan. Individuals who take Psychotropic Medication, a formal Psychotropic Medication Plan is required. A QIDP can develop the plan which, can be part of the BSP or a stand-alone document. However, the BCBA should review and approve prior to review by the BPRC and the HRC. 3. Staff training-Professional staff. The BCBA and QIDP must complete a set of courses established by ADMH which will be the core curriculum of behavioral services training. Included in the core curriculum will be the Behavioral Services Procedural Guidelines and other training as required and determined to be of best practice by the Director of Psychological and Behavioral Services. These guidelines provide greater detail regarding the provision of behavioral services in Alabama that include a list of approved procedures, acceptable methods of data collection, and content requirements of the BSP. The following temporary modifications apply: Required staff training for beginning employment may be conducted on-line, by telephone, or electronically, as appropriate. Any staff persons not fully trained must work under supervision of a fully trained staff person. Annual refresher training of staff due through 7/1/2020 may be postponed until 10/1/20, and may be conducted on-line, by telephone, or electronically, as appropriate.</p> <p>4. Staff Training-Direct Support Staff. All direct support staff who work with an individual who has a BSP and/or Psychotropic Medication Plan must be provided specific training on that person's plan, by the BCBA or QIDP, before they can work with the individual. This training is in addition to the initial and annual training requirements for management of challenging behaviors. The initial and annual refresher training should be provided by a certified trainer through a nationally recognized company. The following temporary modifications apply: Required staff training</p>

			<p>for beginning employment, including Nurse Delegation Program training, may be conducted on-line, by telephone, or electronically, as appropriate. Any staff persons not fully trained must work under supervision of a fully trained staff person. Annual refresher training of staff due through 7/1/2020 may be postponed until 10/1/20, and may be conducted on-line, by telephone, or electronically, as appropriate.</p> <p>5. Behavioral needs. To qualify for a special behavioral services provider rate, individuals must have an initial screening by a member of one of the Comprehensive Support Services Team (CSST) leaders, present a clear and present danger to self and/or others, Behavior Therapy Units and specialized behavioral services approved by the director of Psychological and Behavioral Services. Specialized rates will be approved in 6 month increments and be based on data collect/driven decision making.</p> <p>REQUIREMENTS 1. 24/7 LPN services. LPN serves as one of at least two staff on duty in a home with no more than 4 persons residing. LPN provides ongoing treatment and medical services and supports as identified by assessed needs of an RN, other Medical Professionals, and the person centered team. 2. RN services. The RN serves in an administrative capacity such as a Home Manager or QIDP. The RN provides clinical supervision to the LPN and oversees training, implementation and compliance with the Department of Mental Health's Nurse Delegation Program. Other duties may include serving as back-up staff in the absence of the LPN, procurement of needed specialized medical supplies and equipment, primary liaison between individuals receiving services and all required health care professionals, and annual nursing assessment, etc. 3. Physician services. The agency ensures that individuals have a primary care physician or group of physicians. The individual, their family, and/or their legal representative, to the extent possible, choose their primary care physician or group. The agency provides a comprehensive set of medical records to the primary care physician or group to include</p>
--	--	--	--

			<p>summary of current diagnoses, treatment modalities and their rationale, history of previous conditions and issues associated with current diagnoses and successful and failed treatments, etc. 4. Staff training. The agency ensures that all staff working with individuals supported are provided with specific training related to all aspects of person's medical situations, signs and symptoms related to specific conditions, and other specialized delegated treatments as outlined in the Nurse Delegation Program and Nurse Practice Act. Required staff training for beginning employment, including Nurse Delegation Program training, may be conducted on-line, by telephone, or electronically, as appropriate. Annual refresher training of staff due through 7/1/2020 may be postponed until 10/1/20, and may be conducted on-line, by telephone, or electronically, as appropriate 5. Medical needs. Service Specification

Service Title: Personal Care (ID & LAH)

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Personal Care Services include assistance with any activity of daily living (ADL) or instrumental activity of daily living (IADL). Assistance for ADLs includes bathing, toileting, transfer and ambulation, skin care, grooming, dressing, extension of therapies and exercise, routine care of adaptive equipment primarily involving cleaning as needed, meal preparation, assistance with eating, and incidental household cleaning and laundry. IADLs include assistance with shopping, budgeting, using public transportation, social interaction, recreation, and leisure activities. Assistance with IADLs includes accompaniment, coaching and minor problem-solving necessary to achieve the objectives of increased independence, productivity and inclusion in the community.

Personal Care can also include supporting a person at an integrated worksite where the individual is paid a competitive wage. There is a separate code for this service, to distinguish it from other personal care activities.

Personal care attendants may transport consumers in their own (the attendant's) vehicles as an incidental component of this service. For this component to be reimbursed, the personal care attendant must be needed to support the consumer in accessing the community, and not merely to provide transportation. The attendant must have a valid Alabama driver's license and his/her own insurance coverage as required by State law. The provider agency shall assure the attendant has a good driving record and is in-serviced on safety procedures when transporting a consumer. This service will provide transportation into the community to shop, attend recreational and civic events, go to work and participate in People First and other community building activities. It shall not replace transportation that is already reimbursable under day or residential habilitation nor the Medicaid non-emergency medical transportation program. The planning team must also assure the most cost-effective means of transportation, which would include public transport where available. Transportation by a personal care attendant is not intended to replace generic transportation or to be used merely for convenience.

Personal care under the waiver may also include general supervision and protective oversight reasonable to accomplishing of health, safety and inclusion. The worker may directly perform some activities and support the client in learning how to perform others; the planning team (composed at minimum of the person and family, and support coordinator) shall determine the composition of the service and assure it does not duplicate, nor is duplicated by, any other service provided to the individual. A written description of what the personal care worker will provide to the person is required to be submitted to the state as part of or in addition to the plan of care, and will require approval by the Division of Developmental Disabilities and be subject to review by the Single State Agency for Medicaid.

The definition of Self-Directed Personal Care Services includes assistance with any activity of daily living (ADL) or instrumental activity of daily living (IADL). Assistance for ADLs includes bathing, toileting, transfer and ambulation, skin care, grooming, dressing, extension of therapies and exercise, routine care of adaptive equipment primarily involving cleaning as needed, meal preparation, assistance with eating, and incidental household cleaning and laundry. IADLs include shopping, banking, budgeting, using public transportation, social interaction, recreation, and leisure activities. Assistance with IADLs includes accompaniment, coaching and minor problem-solving necessary to achieve the objectives of increased independence, productivity and inclusion in the community.

Self-Directed Personal Care may also include general supervision and protective oversight reasonable to ensure the health, safety and inclusion of the client. The worker may directly perform some activities and support the client in learning how to perform others; the planning team (composed at minimum of the person and family, and a case manager or community specialist) shall determine the composition of the service.

Self-Directed Personal Care may include supporting the participant at an integrated worksite where the participant is paid a competitive wage. There is not a separate rate or service code for this support when it is self-directed.

Self-Directed personal care attendants may transport consumers in their own (the attendant's) vehicles as an incidental component of this service. For this component to be reimbursed, the personal care attendant must be needed to support the consumer in accessing the community, and not merely to provide transportation. Additional payment will be made to the worker for mileage. The attendant must have a valid Alabama driver's license and insurance coverage as required by State law. This service may provide transportation into the community to shop, attend recreational and civic events, go to work and participate in People First and other community building

activities. It shall not replace transportation that is already reimbursable under day or residential habilitation nor the Medicaid non-emergency transportation program. Transportation by a personal care attendant is not intended to replace generic transportation or to be used merely for convenience.

The plan of care or an addendum shall specify any special requirements for training, more than basic training, which may be needed to support the individual. Consumers and their families shall be key informers on the matter of special training and will be responsible for providing such training to their workers.

There is no restriction on the place of service as long as the person is eligible for the waiver in that setting and no duplication of payment occurs. Payment is for a 15-minute unit of service delivered to the individual and does not include the worker's time of travel to and from the place of work.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Personal Care is limited to no more than 12 hours/48 units each day for individuals living in the home with relatives or caregivers. The number of hours provided may exceed 12 hours/48 per day for those individuals who live independently and assessed needs indicate the need for additional support and/or for participant whose hours need to exceed the 12 hours can be provided, but the approval should be based on the emergent need (i.e. illness or death of the primary caregiver). When circumstances related to COVID-19 diagnoses or potential contact require it (substantiating documentation of the need must be maintained and submitted via ADIDIS in advance of any change), any previously authorized Personal Care services may be modified up to a maximum of 18 hours per day without requesting a variance via Request for Action (RFA) from RCS in order to meet the needs of the participants. In the event an exception is made to allow overtime for Personal Care workers, DDD will permit, with documentation of substantiated need, overtime work to allow the needed amount, duration or change in scope within the Waiver to effectively address emergent health, safety and welfare-related needs of participants during the COVID-19 pandemic.

The plan of care or an addendum shall specify any special requirements for training, more than the basic training, which may be needed to support the individual. Parents and other caretakers shall be key informers on the matter of special training and will be encouraged to participate in the training and supervision of the worker.

When this service is provided to participants living with their parents or guardians, it shall not supplant the cost and provision of support ordinarily provided by parents to children without disabilities, nor shall it supplant educationally related services and support that is the responsibility of local education authorities. The number of hours/units provided to the individual documents assessed need for the service as an alternative to institutional care and the reasonable cost effectiveness of his or her plan.

Agency provided Personal Care Workers shall not be members of the immediate family (parents, spouses, children) of the person being supported, nor may they be legally obligated in any other way to provide the service. Any other relatives, or friends, who are employed to provide services shall meet the qualifications for providers of care and, as for all other personal care workers, payment shall only be made for services actually rendered.

Employment of a relative or friend shall be noted and justified in the consumer's record by the provider agency. While in general Personal Care will not be approved for a person living in a group home or other residential setting, the Division of Developmental Disabilities may approve it for specific purposes that are not duplicative.

The following temporary modifications apply: Personal Care services may be provided by a natural caregiver(s) or relative(s) (e.g., the spouse, parent, step-parent or child of the waiver recipient) living in the same residence with the person if all of the following are true:

- o The participant is twenty-one (21) years of age or older; and
- o The natural caregiver or relative being paid to provide this service is not also the legal guardian (or Medicaid representative/EOR for self-directed services) for the participant; and
- o The natural caregiver is otherwise qualified and capable of providing the care and assistance needed;
- o A paid provider (either agency or other self-direction worker), who would normally provide the service, is unable to do so at any point during the period for which this Transition Plan is effective.

If the above requirements are met, this service shall not supplant natural supports provided by the natural caregiver(s) or relative(s) living in the same residence with the person. Reimbursement for these services will be managed as per current Self-Direction practices outlined in the ID/LAH Waivers. The services must be rendered according to the existing Plan of Care and according to the service volume(s) already approved therein. Any needed changes to service volume must be requested via Support Coordination through the established request process.

Self-Directed Personal Care may not be provided to participants who lack the necessary support systems to ensure the responsibilities of employing staff are carried out and that the participant's security and well-being is maintained. Thus, this service would typically be provided to participants who live in their own homes with family members or other responsible relatives who can assist with the responsibilities of administering a self-directed

services program. Self-Directed Personal Care may also be provided in settings where the individual lives in his own house or apartment alone or with others, with the assistance of family or a circle of support, but the Regional Community Service Office must review and approve this arrangement before it can be reimbursed. The purpose of this review is to assure the support is near and frequent enough to carry out the needed tasks and also to assure there is no conflict of interest.

When this service is provided to individuals living with their family/guardians, it shall not supplant the cost and provision of support ordinarily provided by family/guardians without disabilities, nor shall it supplant educationally related services and support that is the responsibility of local education authorities. Otherwise, the only limitation on hours provided is the individual's documented need for the service as an alternative to institutional care and the reasonable cost effectiveness of his or her plan.

There is no restriction on the place of service so long as the person is eligible for the waiver in that setting and no duplication of payment occurs. Payment is for a 15-minute unit of service delivered to the individual, not including worker's time of travel to and from the place of work.

Personal care services are not available for persons under the age of 21 as this service is covered through EPSDT.

Service Specification

Service Title: Adult Companion Services (ID and LAH)

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Non-medical care, supervision and socialization, provided to a functionally impaired adult. Companions may assist or supervise the individual with such tasks as meal preparation, laundry and shopping, but do not perform these activities as discrete services. The provision of companion services does not include hands-on nursing care.

Providers may perform light housekeeping tasks that are incidental to the care and supervision of the individual. This service is provided in accordance with a therapeutic goal in the plan of care, and not purely diversional in nature. This service is needed to prevent institutionalization.

Services include:

Supervising daily living activities, to include reminding client to bathe and take care of hygiene and personal grooming, reminding client to take medication, and overseeing planning and preparation of snacks and meals.

Staying with client in the evening and at night to ensure security.

Accompanying client into the community, such as shopping.

Supervising/assisting with laundry and performing light housekeeping duties that are essential to the care of the client.

Following written instructions such as the care plan and documenting services provided.

The QIDP will provide and document in the case record on-site supervision of the companion worker every 60 days. The supervisor will conduct on-site supervision more frequently if warranted by complaints or suspicion of substandard performance by the worker.

Objective: Companion Services are to provide support and supervision that is focused on safety, non-medical care and socialization for clients participating in the ID waiver. Medicaid will not reimburse for activities performed which are not within the scope of services.

Self-Directed Adult Companion Services

Supervision of the self-directed adult companion workers is the responsibility of the family and/or the consumer.

Documentation

The family and consumer must maintain documentation of the dates and hours of service provided and provide this to the FMSA bi-weekly for processing billing to Medicaid and payment to the workers. Daily or weekly logs, signed by the worker and by the consumer or family member, which identify the consumer, the worker providing the service, the date(s) of service, the time service began and the time service ended, and the activities provided within each span of work, will be required. A form will be provided by the FMSA.

Financial Management Services

The self-directed adult companion workers will be employed by the family and consumer, who will be employers of record. The family and consumer will be supported by a Financial Management Service Agency (FMSA). The FMSA will pay the workers employed by the family and participant, on a bi-weekly basis. Payment will be made on the basis of receipt of one time card per worker, which will document the hours the worker has worked during the bi-weekly pay period with an indication of the service rendered for that time period (i.e. adult companion, personal care).

The FMSA will withhold the necessary tax amounts, including employer's share, and pay these amounts to the proper authorities on a quarterly basis. In addition to withholding FICA and Unemployment, the Fiscal Agent will withhold and submit income taxes for the workers. The primary requirements for the FMSA are to:

- a) Handle all payroll taxes required by law
- b) Assist with the documentation of training and other qualifications of workers as required by the waiver, including verification of citizenship.

- c) Maintain records to assure the worker was qualified, the service was provided in accordance with the plan of care
- d) Furnish background checks on prospective employees
- e) Provide the person and family with easy access to resolve problems with payroll and provide a notification route for any other issues that may arise. This means that the FMSA, if it hears that a change may be needed or that a backup plan needs to start, will notify the operating agency, the self-directed liaison and the case manager. The objective is to provide a network within which, no matter which contact the person or family makes, the information is shared, and the reaction is comprehensive.
- f) Also, the FMSA will help to assure the person and his or her family are and remain satisfied with the service

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- a. Services must be on the service plan of care with documentation in the case record of need for service. The service is 15-minutes of direct companion services provided to the client.
- b. The provision of the service, and the number of units of service provided to each client, is dependent upon the individual's needs as set forth in the service plan of care.
- c. Companion service is not available to group home residents.

No payment will be made for companion services furnished by a member of the participant's family (parent, child, spouse or legally obligated individual.)

The following temporary modifications apply: Adult Companion services may be provided by a natural caregiver(s) or relative(s) (e.g., the spouse, parent, step-parent or child of the waiver recipient) living in the same residence with the person if all of the following are true:

- o The participant is twenty-one (21) years of age or older; and
- o The natural caregiver or relative being paid to provide this service is not also the legal guardian (or Medicaid representative/EOR for self-directed services) for the participant; and
- o The natural caregiver is otherwise qualified and capable of providing the care and assistance needed;
- o A paid provider (either agency or other self-direction worker), who would normally provide the service, is unable to do so at any point during the period for which this Transition Plan is effective.

If the above requirements are met, this service shall not supplant natural supports provided by the natural caregiver(s) or relative(s) living in the same residence with the person.

Companion services are limited to functionally impaired adults (age 21 and over).

Companion service is non-medical and does not include hands-on care.

The direct service provider and/or billing provider must maintain documentation of the dates and hours of service provided, and of the service activities provided within each span of work, showing that services delivered are consistent with the service plan of care. Daily or weekly logs, signed by the worker and by the consumer or family member, which identify the consumer and the participant's Medicaid number, the worker providing the service, the date(s) of service, the time service began and the time service ended, and the specific activities provided within each span of work, will be acceptable as a minimum. In addition, there must be evidence of a quarterly review of the services provided and of the continued appropriateness of those services by a QIDP.

Reimbursement for these services will be managed as per current Self-Direction practices outlined in the ID/LAH Waivers. The services must be rendered according to the existing Plan of Care and according to the service volume(s) already approved therein. Any needed changes to service volume must be requested via Support Coordination through the established request process.

Service Specification

Service Title: Respite (ID and LAH)

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Respite care is a service provided in or outside a family's home to temporarily relieve the unpaid primary caregiver. Respite care provides short-term care to an adult or child for a brief period of rest or relief for the family from day to day care giving for a dependent family member.

Respite is intended for participants whose primary caregivers typically are the same persons day after day (e.g. family members and/or adult family foster care providers) and is provided during those portions of the day when the caregivers typically provide care. Relief needs of hourly or shift staff workers will be accommodated by staffing substitutions, plan adjustments, or location changes, and not by Respite care. Respite care typically is scheduled in advance, but it can also serve as relief in a crisis. As crisis relief, out of home respite can also allow time and opportunity for assessment, planning and intervention to try to re-establish the person in his home, or if necessary, to locate another home for him.

Some consumers are institutionalized because their community supports become exhausted, or because they don't know how to cope with an increasingly challenging behavior, or due to the loss/incapacitation of a caregiver. The scope of out of home respite will allow quick response to place the person in an alternate setting and provide intensive evaluation and planning for return, with or without additional intervention and supports. Planning will be made for alternate residential supports if return is not possible. The goal is to avoid institutionalization.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Respite care is dependent on the individual's needs as set forth in the plan of care and requires approval by the Division of Developmental Disabilities, subject to review by the Alabama Medicaid Agency. The limitation on in home and out of home Respite Care in combination shall be 4320 15-minute units of service (equals 1080 hours or 45 days) per participant per waiver year. When circumstances related to COVID-19 diagnoses or potential contact require it, and upon explicit approval by the RCS office, Respite services, including any combination of In-Home or Out-of-Home Respite, may exceed the fiscal year limit of 4320 units.

Respite care out of the home is typically provided in a certified group home. When circumstances related to COVID-19 diagnoses or potential contact require it, and upon explicit approval by the Regional Community Services (RCS) office, Out-of-Home Respite services may be provided in an alternative (e.g., non-certified) setting to ensure the health and safety of participants. The provider must submit to RCS a detailed plan for staffing, supplying, and monitoring the provision of Out-of-Home Respite in the alternative setting and must supply the Support Coordination agency and RCS with full contact information and a list of proposed staff members for the alternative setting in advance of its utilization.

Service Specification

Service Title: Specialized Medical Supplies (ID and LAH)

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Specialized medical supplies are those which are specified in the plan of care and are necessary to maintain the individual's health, safety and welfare, prevent further deterioration of a condition, or increase an individual's ability to perform activities of daily living. Specialized medical supplies are supplies that address the participant's physical health and any ancillary supplies. All items shall meet applicable standards of manufacture and design. Providers of this service must maintain documentation of items purchased for each individual. State plan services must be utilized prior to the expenditure of waiver funds for medical supplies.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Supplies reimbursed under this service shall not include common over-the-counter personal care items, supplies otherwise furnished under the Medicaid State plan, and items which are not of direct medical or remedial benefit to the recipient and does not include items such as soap, cotton swabs, toothpaste, deodorant, shampoo or sanitary items. Costs for medical supplies are limited to \$1800 per year, per individual and must be prescribed by the participant's physician. The following temporary modifications apply: Temporarily allow verbal orders from a physician or other licensed health care provider for non-prescription Specialized Medical Supplies authorized in an individual's care plan as of the date of the COVID-19 PHE. Additionally, temporarily increase the limit of medical supply costs to \$2400 per year, per individual. If an exception is required due to issues related to the COVID-19 pandemic, a specific request must be made via Support Coordination through the established request process. This modification will be in effect beginning March 13, 2020 and extend through the end of the month in which the PHE terminates, not to exceed the end date of the approved Appendix K

Providers may be reimbursed at the approved waiver service limits, per existing Waiver limits and guidelines, when purchasing Specialized Medical Supplies from any available vendor, regardless of inclusion on the existing approved vendor list, who can provide necessary and potentially short-supplied items in stock when supply shortages or costs are impacted by circumstances related to the COVID-19 pandemic.

This service is not available to participants under the age of 21 years as medical supplies are covered through EPSDT for this age group.

Service Title: Assistive Technology Services (ID and LAH)

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Assistive technology means an item, or piece of equipment (including any equipment not covered by Medicaid State Plan Services), service animal or product system, whether acquired commercially, modified or customized that is used to increase, maintain, or improve functional capabilities of participants. Assistive technology services mean a service that directly assist an individual in the selection, acquisition, or use of an assistive technology device that may include:

(A) the evaluation of the assistive technology needs of a participant, including a functional evaluation of the impact of the provision of appropriate assistive technology and appropriate services to the participant in the customary environment of the participant; (B) services consisting of purchasing, leasing, or otherwise providing for the acquisition of assistive technology devices for participants; (C) services consisting of selecting, designing, fitting, customizing, adapting, applying, maintaining, repairing, or replacing assistive technology devices; (D) coordination and use of necessary therapies, interventions, or services with assistive technology devices, such as therapies, interventions, or services associated with other services in the service plan; (E) training or technical assistance for the participant, or, where appropriate, the family members, guardians, advocates, or authorized representatives of the participant; and (F) training or technical assistance for professionals or other individuals who provide services to, employ, or are otherwise substantially involved in the major life functions of participants. Providers of this service must maintain documentation of items purchased for each individual.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

A prescription from the participant's physician is required for this service. Temporarily allow verbal orders from a physician or other licensed health care provider for non-prescription Assistive Technology authorized in an individual's care plan as of the date of the COVID-19 PHE. Licensed health care provider orders will not be required for PPE supplies or for Assistive Technology such as I-pad-type tablets or other devices to access virtual services. The request must provide a justification to demonstrate that the PPE and Assistive Technology requested are appropriate and individualized to the person's needs, and receipts for approved expenditures must be kept on file. If an exception is required due to issues related to the COVID-19 pandemic, a specific request must be made via Support Coordination through the established request process. This modification will be in effect beginning March 13, 2020 and extend through the end of the month in which the PHE terminates, not to exceed the end date of the approved Appendix K.

Items reimbursed with waiver funds shall be in addition to any medical equipment and supplies furnished under the State plan and shall exclude those items which are not of direct medical or remedial benefit to the recipient. Payment is for the cost of the item provided.

There is a \$5,000 per year, per individual maximum cost. For children 21 years and younger, State Plan Services available through EPSDT are utilized prior to expending waiver funds.

Self-Directed Assistive Technology is only available to those participants who are self-directing personal care, companion and/or LPN/RN services.

Service Specification

Service Title: Positive Behavior Support (ID and LAH)

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Positive Behavior Support (PBS) is a set of researched-based strategies that combine behavioral and biomedical science with person-centered, valued outcomes and systems change to increase quality of life and decrease problem behaviors by teaching new skills and making changes in a person's environment. The strategies take into consideration all aspects of the person's life and are intended to enhance positive social interactions across work, academic, recreational, and community settings while reducing actions that are not safe or that lead to social isolation, loneliness or fearfulness. PBS provides framework for approaches that emphasize understanding the person, strengthening environment that build on individual strengths and interests, and decreasing interventions that focus on controlling problematic behavior in order to fit the person's environment. Billable tasks include: conducting functional behavior assessments, behavior support plan (BSP) development, training to implement the BSP, data entry/analysis/graphing, monitoring effectiveness of BSP, writing progress notes/reports, etc. BSP may include consultation provided to families, other caretakers, and habilitation services providers. BSP shall place primary emphasis on the development of desirable adaptive behavior rather than merely the elimination or suppression of undesirable behavior. A behavior support plan may only be implemented after positive behavioral approaches have been tried, and its continued use must be reviewed every thirty days with reports due quarterly.

Positive Behavior Support (PBS) waiver service is comprised of two general categories of service tasks. These are:

1) Development of a Behavior Support Plan (BSP) and (2) implementation of a BSP. In addition, this waiver service has three service levels: two professional and one technical, each with its own procedure code and rate of payment. The service levels are distinguished by the qualifications of the service provider and by supervision requirements. Both professional and technical level service providers may perform tasks within both service categories, adhering to supervision requirements that are described under provider qualifications.

The following temporary modifications apply: Behavior Supports professionals may provide services by electronic means (e.g., Skype/Zoom), per HIPAA standards, rather than by face-to-face meetings.

The two professional service provider levels are distinguished by the qualifications of the person providing the service. Both require advanced degrees and specialization, but the top level also requires board certification in behavior analysis. The third service provider level is technical and requires that the person providing the service be under supervision to perform PBS tasks. Providers of this service is required to perform the required monthly exclusion lists, AMA and OIG for all staff. Documentation of monthly checks are required.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The maximum units per year of both professional and technician level units in combination cannot exceed 1200 and the maximum units of any combination of professional level one (1) or two (2) cannot exceed 800. Maximum units of Technician level service are the balance between billed professional level one (1) and two (2) units and the combined maximum per year. Professional level providers may provide more than the 800 unit limit, but these additional units will be paid at the Technician level up to the 1200 max on total units. Providers of service must document which tasks are provided by date performed in addition to their clinical notes. There will be no accommodation for exceeding the overall cap of 1200 units for all three levels. The following do not qualify for billing under this waiver service: 1) individual or group therapy, 2) group counseling, 3) behavioral procedures not listed in a formal BSP or that do not comply with the current Behavioral Services Procedural Guidelines and Community Certification Standards, 4) non-traditional therapies, such as music therapy, massage therapy, etc., 5) supervision.
