

TRAVEL REQUIREMENTS RELATED TO THE COVID-19 PANDEMIC

Employees are encouraged to get tested within 3-5 days after returning from travel.

Employees who develop Covid symptoms during or directly after travel must contact their supervisor and quarantine for 5 calendar days from the date symptoms began. Directly after travel is defined as within 5 days of your return home.

Employees will be required to wear a mask for an additional 5 calendar days after the quarantine period.

All employees are encouraged to follow CDC guidelines when traveling to prevent the spread and transmission of the virus. The following CDC links are provided to assist you in making travel decisions.
