NDP supports individualizing and maximizing the people served in certified ADMH programs right to independence, choice, privacy and dignity. Assessing for safe and accurate medication administration is the MAS nurse responsibility and should be completed with the expectation that the people served in ADMH certified community programs are both encouraged and allowed to maintain as much independence as possible, including the right to retain control of their medications when it can be done safely. A person with the mental and physical capacity to develop increased independence in medication administration should be supported with self-administration instruction/education/training.
