POLICY AND PROCEDURE MANUAL

- ❖ **Must utilize ADMH Administrative Codes** when writing/developing policies and procedures. You cannot utilize policies and procedures from other states you may provide services. Your **POLICY** is the ADMH Administrative Code.
- ❖ **Use the Administrative Code numbers.**
- ❖ A policy and procedures manual is a crucial tool for running a business.
- ❖ It serves as a consistent source for organizational policy, which are the overall regulations that govern the business, and **the procedures that define how those policies will be implemented.**
- ❖ A policy and procedure manual exists to answer the **who, what, when, where** and **how** of operations. It spells out for all employees what is expected of them and how to accomplish it.
- ❖ It contains instructions on how to perform a task.
- ❖ It ensures routine jobs get performed safely and in compliance with the ADMH Administrative Code.

- ❖ Procedures are really about communication.
- ❖ Your employees need to understand what is expected of them.
- ❖ Your employees need a procedures manual to reference for training.
- ❖ Your supervisors need a policy manual to reference for managing business processes.
- ❖ By documenting your procedures, you are communicating what is important for growth, quality, and customer satisfaction.

- ❖ Your policy and procedure manual can be a three-ring binder, a folder on a network share drive. What's important is that everyone understands what constitutes your policy and procedure manual and where a policy or procedure can be found when someone needs it.
- ❖ Your policy and procedure manual will be unique to your agency and programs and should contain the required minimum policies listed in the Administrative Code.
- ❖ Therefore, you must be familiar with the entire Administrative Code and other laws that pertain to operating a behavior health program such as HIPPA, 42 C.F.R. Part 2, Evidence Based Practices for the population you intend to serve.
