

## Waiver Listening Sessions

If you or someone you care about has an intellectual or developmental disability, this session is for you! Waiver Listening Sessions are a chance for individuals with disabilities, their families, and caregivers to share their voices and help shape the services and supports provided through Medicaid waiver programs.

Whether you've used waiver services for years or are just getting started, we want to hear from you—your experiences, your challenges, and your ideas. These sessions are informal, welcoming, and focused on listening to what matters most to the people who use these services.

**Come join the conversation in person or online and help make a difference!**
