

Mobile Crisis Services: Cumulative October 2022 - December 2025

AltaPointe • Cahaba • Carastar • CarePath • East • East Central • JBS • Northwest • South Central • SpectraCare • WellStone • West

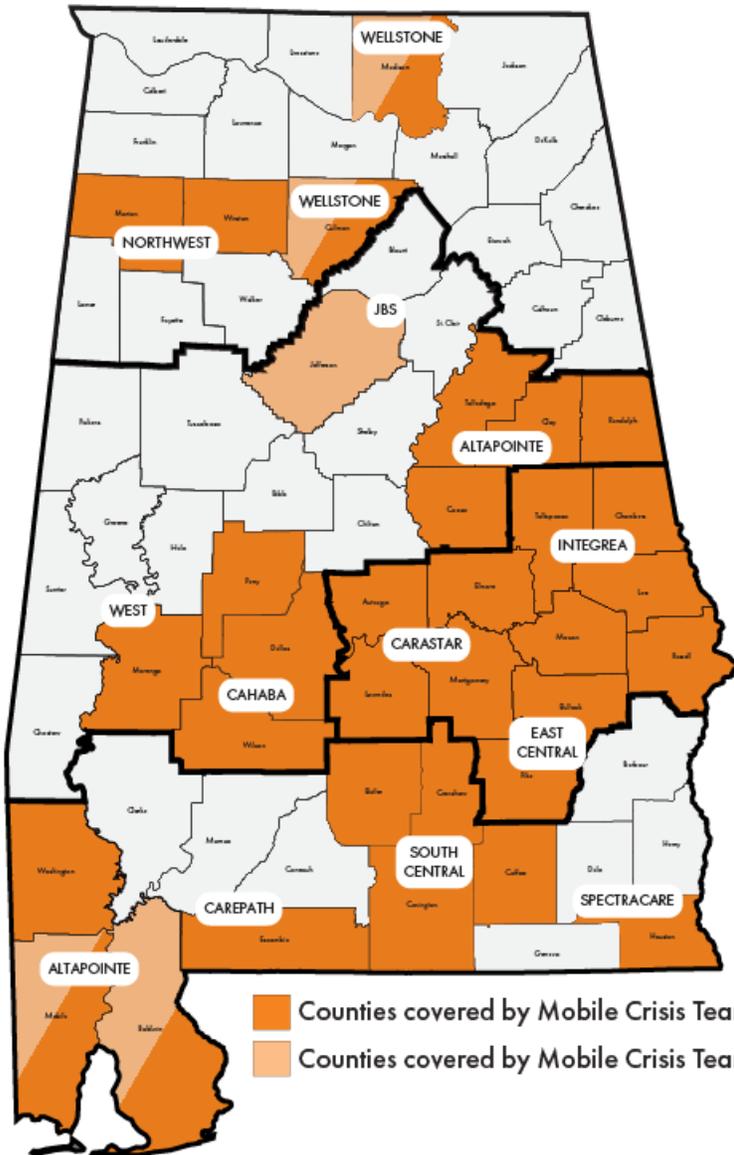

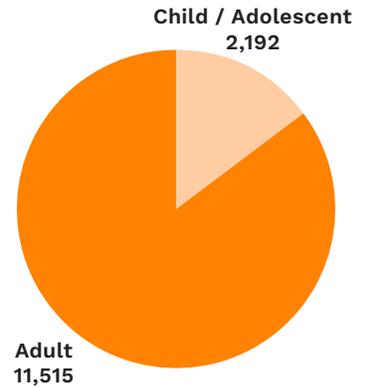

Alabama’s Crisis System of Care provides all individuals with someone to call, someone to respond, somewhere to go in times of crisis. Mobile Crisis offers “someone to respond,” and are essential in the state’s rural counties.

Mobile Crisis Services offer community-based intervention to individuals in need wherever they are: home, work, or in the community. Staff are trained to provide triage, assessment, de-escalation, peer support, coordination with medical services, supportive counseling, crisis planning, and follow-up. Staff can work independently or as co-responders with law enforcement.

Mobile Crisis Services decrease hospital emergency visits and arrests for individuals in crisis. Staff coordinate with 988 and Crisis Centers for crisis services.
